AUTOMATE

## Li-ion Battery motors for Roller blinds

Our Li-ion motors can move up to 5kg of blinds effortlessly and only need recharging roughly every 6 months to give an estimate. Recharging is simple and anyone can use the remote-control system with its simple button configuration. Battery motors are very quiet and very easy for anyone to use. Battery motors can also have a solar panel attached to automatically charge them.

## Wired motors for Roller blinds

Our wired motors are a cost-effective option running on just 240v. Once installed by a licensed electrician they really look after themselves. Our wired motors can lift up to 18kg meaning you can link up to three blinds and move as a group. All motors are compatible with remote, switch control and smart phone control.

## Why choose motorized Roller Blinds?

Motorized Roller Blinds are a simple solution to stop the sun damaging your home or business furniture and to give you privacy. Swan blinds remote controlled roller blinds can be made up to 3000mm width. Roller blinds are still the most popular type of blind in Perth in 2019 and motors are being used by more customers every month. With the advancement in battery life, li-ion motors are becoming extremely prevalent in Perth apartments and houses.

## Link your motorized Roller blinds and use less motors

Roller blinds can be linked together using side by side linking brackets, or even round corners where necessary. This means you can move up to three roller blinds with one wired motor, reducing the cost.

## Use your Smart Phone to control the blinds

Two-way radio control gives you immediate feedback showing shade positions and motor battery health relayed via the smartphone app. Not looking at the app?™ technology allows you to use your smartphone app for remote-free motor setup, no need for a handheld remote. ARC™ makes it easy to connect, configuring and readjust settings for your motorization system using the Setup Wizard guiding you through the installation process. Some functions include Limit Setting, Favorite Shade Position and three Speed Settings. The Levelling Control allows precise positions of multiple shades to ensure perfect alignment and configuration.

## Push5 Remote controls

The Automate Push series fuses luxury and functionality in a well-crafted, minimal design. The 5 channel remote features soft tactile rubber buttons that can control 5 individual or 5 groups of shades, as well as an "All" button that conveniently activates all programmed channels. The Push5 is available in two premium finishes - Gloss White and Matte Black.
